WOODCUTTS

John Murphree (creator and artist of WoodCutts) has been a designer craftsman for over 40 years, exploring many mediums including leather work, beading, scrimshaw, silver smithing and finally, wood working.

In 2001 John noticed that the wood jewelry displayed in trade magazines and local stores was limited in both creativity and design and that quality pieces were very expensive. This observation inspired him to combine his jewelry designing skills with his woodworking knowledge to create a concept for wood jewelry that would mark a change in the industry.

John, with his daughter Lacey Schlosky, has since expanded into creating a wide variety of laser cut wood jewelry and souvenir items. In the summer of 2017, John retired to his beloved Colorado mountains and Lacey stepped into the ownership role. While intending to hold strong to John's original creative vision, Lacey will focus on enhancing existing lines and the creation of new products, all the while continuing a steadfast commitment to affordable wholesale pricing with the highest quality standards.

All items are made at our small, family-run shop in Englewood, Colorado USA and all materials are proudly sourced and manufactured in the USA.

We hope you will enjoy these creations as much as we enjoy making them.

LEGEND OF THE DREAMBOX

The Legend of the Dreambox suggests writing down your fondest dream, greatest desire, or strongest wish on a small piece of paper, putting that paper in a dreambox and placing it beside your bed. Every evening as you retire and every morning as you rise, hold your dreambox and think on your dream. Believe with all your heart that it is so. Legend has, that if done faithfully...
your dream will come true.

They are laser carved and engraved from furniture grade hardwoods including Walnut, Cherry, Birch, Alder, Maple and Mahogany. They are then hand finished and assembled. The magnets always come assorted by size and wood tone.
