WOODCUTTS

Our story begins with a passion for craftsmanship and a belief that beautiful design should be accessible to everyone.

Founder John Murphree spent more than 40 years as a designer and craftsman, exploring a wide range of artistic mediums including leatherwork, beading, silversmithing, and woodworking. In 2001, he noticed that much of the jewelry available in stores lacked creativity and thoughtful design, while quality pieces came with a premium price tag. Inspired to change that, John combined his design expertise with his woodworking skills to create a fresh approach to wood jewelry.

In 2008, John introduced Willow, our original wood earring collection, and the first of its kind in the United States. Made from real hardwood veneers, Willow quickly became known for its organic beauty, exceptional craftsmanship, and remarkably lightweight feel.

As the collection grew, we introduced Twig, a smaller, more delicate interpretation of the original Willow design, accented with silver to beautifully complement the natural wood. Since launching our original wood earring collections, we have proudly handcrafted and sold more than half a million pairs of earrings, making Willow and Twig enduring customer favorites for nearly two decades.

From our family to yours, thank you for supporting American craftsmanship and small business. We hope you enjoy these creations as much as we enjoy making them.
